BERG TO CRANE

A FEW NOTES:

NOTE 1 - There is a difference in how Berg calls out "**some**" of its pin positions. Some parts call out the number of pins per row while other parts call out the total number of positions.

EXAMPLE: Berg 66952-012 would be Crane's ATP 24DS-GTBT155

In Crane's part number system, the number of positions is always the **TOTAL NUMBER OF POSITIONS**. To alert you to the difference, a "YY" instead of an "XX" is used for the BERG parts that only call out pins per row.

NOTE 2 - If you have a Berg number that is not listed but fits into the sequence of numbers on this cross, please call the factory (1-800-676-7644). Some older Berg series will apply to this situation.

Attention: Please verify all crosses with the factory prior to placing your order.
